Water borne activities for disabled and disadvantaged people

FEBRUARY 2015 NEWSLETTER

Roll on the Spring

So far we've had a kind winter here on the broads, a few icy starts with some beautiful days of sunshine and clear blue skies for everyone to enjoy.

Joining the fleet in 2015 is a Kinsman keelboat. This looks identical to the Yeoman but has a lifting rather than a fixed keel. Both types were designed for sailing on the Broads and provide safe and exciting sailing for up to four people.

The cost of running the boat trips is £20 per person for half a day, the Trust is fortunate to get funding from individuals and trusts so we ask for a suggested donation of between £10 and £15. Our residential bungalow, which sleeps 10, costs us £55 per person per day to maintain, and we ask visitors to pay a suggested donation of £32.

You may be interested to know that we currently administer a limited Bursary Fund to assist those who are enthusiastic about coming to enjoy our facilities, but possess insufficient funds to do so.

If you wish to apply for help from this fund, which would take the form of a reduction in the donation of up to 50%, please talk to us. The fund is not means tested, and only brief details are required.
